

Harassment and Discrimination Training

Introducing Traliant's Preventing Discrimination and Harassment

Training employees on how to recognize and respond to situations that can lead to sexual harassment — from the obvious to the subtle — is one of the most effective ways to foster a positive, respectful workplace. Training can also help organizations avoid costly harassment complaints that can damage their reputation, recruiting, retention, and bottom line.

Through BenefitMall, you can now offer your clients an award-winning, interactive sexual harassment training course to help keep them in compliance with their state's requirements.

The course features modern, bite-sized episodes served in a news-style format. Learners are immersed in interactive videos that let them choose alternate endings, while learning to handle difficult, real-world situations. By influencing behavior and culture, employees are trained to act ethically, speak up and prevent harassment and discrimination, and promote a positive, respectful workplace.

New Sexual Harassment Prevention Training for Employers

*Strengthen your client
relationships by providing
them with a compliance
training solution they need.*

Fully customizable, interactive training that resonates with your employees so they don't just watch, they experience!
